EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification:

On page 5, line 12, -- 315 -- has been inserted after "luer lock". It is noted that Figure 2 of the drawings contains reference number 315, which is not referred to in the specification, and number 315 appears to refer to the luer lock.

On page 7, line 23, "210" has been changed to -- 230 --. It is noted that the change is to correct a typographical error, since reference number 230 refers to void on page 7, line 13.

The following is an examiner's statement of reasons for allowance:

The claims in the instant application have not been rejected using prior art because no references, or reasonable combination thereof, could be found which disclose, or suggest a method of treating an osteolytic bone lesion including the steps of making a first hole in the bone adjacent to the bone lesion; making a second hole in the skin and bone adjacent to the bone lesion; attaching a source of negative pressure to the second hole; attaching a source of fluid to the first hole; injecting the fluid through

the first hole and into the bone; and where the fluid mixes with the bone lesion and both the fluid and the bone lesion are sucked out of the bone through the second hole by negative pressure, as set forth in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
